
Antiviral Drug Strategies

current progress in antiviral strategies - cell - antiviral strategies. current antiviral strategies viruses comprise a large group of pathogens that are responsible for causing severe infectious diseases. over the past 30 years, antiviral agents that target viral proteins or host factors have been successfully developed. based on their inhibitory mechanisms, antiviral reagents can **review strategies for antiviral drug discovery** - current strategies for antiviral drug discovery although up to 1996, marketed antiviral therapies were dominated by nucleoside analogues, by the late 1980s new initiatives were beginning that would reduce this domination. since the discovery of hiv, there has been a heightened awareness of antiviral research, even to the point of movies **how effective would antiviral vaccination and antiviral ...** - the impact of any strategies for vaccination and antiviral drug use depends on how soon the pandemic starts. if it starts when there is no vaccine available and only limited supplies of antiviral drugs, it is more likely that targeted strategies for vaccine and antiviral drug use will be the only potential options, and the vaccine will be less ...

prodrug strategies of antiviral nucleotides - utupub - often inefficient and leads to poor antiviral activity. the antiviral efficacy can be improved by applying a prodrug strategy and delivering the antiviral nucleoside directly as its monophosphate. in prodrug strategies of antiviral nucleotides, the negative charges on the phosphate moiety are temporarily masked with protecting groups. **treatment strategies & antiviral drug resistance 7 - 9 ...** - abstracts 1 . reviews in antiviral therapy & infectious diseases 2017_4 . 15th european meeting on hiv & hepatitis . treatment strategies & antiviral drug resistance . 7 - 9 june 2017, rome , italy

antivirals and antiviral strategies - flu - requirement for a specific antiviral drug against the virus infection concerned (and, linked to this, could it reasonably be expected that the virus infection would be controlled by using the antiviral drug); and which antiviral drugs are available to treat or prevent the virus infection concerned (or which antiviral strategies could **european meeting on hiv&hepatitis - virology education** - in antiviral drug resistance to present and discuss the latest developments in the field and identification of treatment strategies for the future. the organizing committee is pleased with the evaluation results and is looking forward to organizing the next edition of this meeting on 30 may - 1 june 2018 in rome, italy. executive summary **antiviral drug-induced nephrotoxicity - ajkd** - review antiviral drug-induced nephrotoxicity hassane izzedine, md, vincent launay-vacher, phd, and gilbert deray, md drug-induced kidney injury is a major side effect in clinical practice, frequently leading to acute renal failure (arf). it accounts for more than 2% to 15% of cases of arf in patients admitted to the hospital or in the intensive **current landscape of antiviral drug discovery [version 1 ...** - viral diseases with vaccines or antiviral drugs, or both, is a constant challenge. even when successful strategies are discovered and employed, the high rate of genetic change exhibited by many viruses, particularly rna viruses, often enables drug resistance or vaccine escape. this is compounded by the periodic emergence of **non-nucleoside antiviral agents: a review of the** - from which currently used antiviral agents suffer, thus make them excellent targets for research, especially in the presence of viral pandemics such as hiv and hepatitis c. methods: the strategies employed in the studies covered in this review were sorted by the type of drug synthesized into ester **influenza antiviral medications: summary for clinicians** - influenza antiviral medications: summary for clinicians content source: <https://cdc/flu/professionals/antivirals/summary-clinicians> page 1 **u.s. department of health and human services** - stockpile sufficient antiviral drug supply to support recommended antiviral drug use strategies and to plan for effective implementation at the time of a pandemic as part of comprehensive pandemic planning and preparedness. in addition to the national recommendations on treatment and prophylaxis, businesses **journal of babar et al., j antivir antiretrovir 2013, 5:2 ...** - antiviral drug discovery and development. antiviral drug therapy- exploiting medicinal plants. mustafeez babar, najam-us-sahar sadaf zaidi, muhammad ashraf and alvina gul kazi* national university of sciences and technology (nust), pakistan. journal of. j. antivirals & antiretrovirals. o u r n a l o f a n t i v i r a l s & a n t i r e t r o v i r a l s ... **research cost-effectiveness of pharmaceutical-based ...** - antiviral drug strategies contained stockpiles to cover 40% of the population (≈ 8 million courses). however, all strategies assumed a limited antiviral drug stockpile (≈ 0.2 million courses) to be used in initial containment efforts for treatment of clinical cases and prophylaxis of case contacts. **novel antiviral drug discovery strategies to tackle drug ...** - a prerequisite for designing novel antiviral agents to overcome drug resistance. 2. antiviral drug designing and screening strategies to accelerate the drug discovery process, against both novel targets and pre-existing targets with drug resistance problem, basic platforms for drug designing and screening are required. **edited by - the-eye** - 1 outlook of the antiviral drug era, now more than 50 years after description of the first antiviral drug 1 erik de clerq 1.1 introduction: the prehistory 1 1.2 key events in antiviral drug development 2 1.3 antiviral drugs: current state of the art 4 1.4 antiviral drugs active against herpesviruses (i.e., hsv, vzv, and so on) 4 **new strategies against drug resistance to herpes simplex virus** - open review new strategies against drug resistance to herpes simplex virus yu-chen jiang¹, hui feng², yu-chun lin¹ and xiu-rong guo^{3,4} herpes simplex virus (hsv), a member of the herpesviridae ... **new antivirals and new antiviral strategies** - new antivirals and new antiviral strategies report from the 18th international workshop on clinical pharmacology of hiv and hepatitis therapy, 14-16 june 2017, chicago, il, usa written by mark masculini since its inauguration 18 years ago, the
